

**IMPORTANT MESSAGE FROM MEADOW LAKE HOMEOWNERS ASSOCIATION REGARDING:
ROAD WORK REPAIR AND MAINTANANCE**

Starting next week (April 27) through the middle of June there will be road work going on throughout the community. Roadwork will include section rebuilds, pothole repair, crack sealing and chip sealing. The schedule is dependent on weather, but the major areas scheduled are:

- April 29 – May 8: Rebuild and widen the front entrance (St. Andrews Drive) and rebuild Spyglass Hill Way from St. Andrews intersection to connection with Spyglass Loop.
- May 11 till end of May: pothole repair and crack sealing throughout community
- June 1-12: Chip sealing throughout the community

During the road rebuilds on the front entrance and Spyglass Hill Way there will be times when the road will be limited to one lane. There will also be times when the roads are uneven with an abrupt edge.

During the pothole repair, crack sealing and chip sealing there will be slow moving or stopped equipment on the road with workers walking around.

Watch for and follow the safety markers, respect the workers and use caution as you proceed.

Thank you for your patience!
